The update is based on realignments within and between the LHIN programs vote 1411 and the Ministry programs vote 1412 which correspond with decisions about programs and services that will remain with the Ministry or transfer to the LHINs. They include base and one-time realignments for 2008/09 and only base realignments for 2009/10 and 2010/11 (except for the Operations of Hospitals which includes some one-time funding agreements). The realignment occurs within the Ministry's total approved appropriation. Additional details and formal adjustments for these programs will be confirmed as part of the 2009/10 Provincial Budget.

The 2008/09 funding allocation includes additional funding (base and one-time only). If further additional funding is designated throughout 2008/09, the table and schedule may be amended or updated allocation letters appended to the agreement to reflect the LHIN allocation. Any additional funding provided would be within the Ministry's total approved appropriation.

The 2009/10 and 2010/11 funding targets are for planning purposes and are base funding targets only (except for the Operations of hospitals which includes some one-time funding agreements). They are subject to the annual Results Based Plan, Printed Estimates and Provincial Budget approvals.

2. The LHIN Operation funding targets for 2009/10 and 2010/11 are to be determined as they are subject to further review.
3. LHIN Operations initiatives include Aboriginal Community Engagement.
4. Operation of Hospitals allocations and funding targets include private and public hospitals. It may also include, as appropriate, any approved PCOP funding as described further in Table 3 - Dedicated Funding.
5. Out-year funding targets of LTC homes for 2009/10 and 2010/11 exclude acuity and stabilization increases due to pending 2008/09 base approvals which will impact out-years.
6. Transfer payment initiatives by LHIN will be allocated by sector by the LHIN at a later date. Initiatives include Aging at Home, Urgent Priorities Funds, Flo Collaborative, and Emergency Department Action Plan that are unallocated. It should be noted that as the LHIN allocates by sector, the allocation will be distributed at the sector level.
